

## CONDITIONS OF PURCHASE FOR CONTRACTS FOR SUPPLIES AND SITE SERVICES

(Issue: June 2020)

### Table of Contents

1	Definitions
2	Requirements for design, construction and operation of the Plant
3	Contents of the Order
4	Execution of the Ordered Items, subcontracts, start of work, approvals, execution of Order
5	Modifications to the Ordered Items
6	Technical documentation
7	Dates, deadlines, penalties
8	Force majeure
9	Schedule reviews, quality inspections and tests
10	Provision of materials or equipment by the Buyer
11	Spare parts
12	Shipping, storage
13	Taking over, tests, passing of risk
14	Warranty for defects
15	Product liability, breach of duty
16	Guarantee for function
17	Third-party rights
18	Ownership, Confidentiality, Data Protection
19	Publications, advertising
20	Suspension, termination
21	Payment, invoicing, guarantees, offsetting, default in payment, assignment, taxes, duties
22	Compliance
23	Export control
24	Partial ineffectiveness
25	Place of fulfilment
25	Applicable law
26	Place of jurisdiction/arbitration

### 1. Definitions

- 1.1 "Business Day" shall mean the days from Monday to Friday except the public holidays and the days declared as holidays in Russia.
- 1.2 "Buyer" shall refer to Linde Engineering Rus LLC legal entity established under the laws of the Russian Federation, registered in the Unified State Register of Legal Entities under the main state registration number 1126315002538, and shall also be referred to herein as "Party".

- 1.2 "Buyer's Site Management" shall mean the person or persons assigned to represent the Buyer on the Site.
- 1.3 "Measurement" shall mean the measuring of completed equipment and material as a basis for invoicing the individual parts of the work.
- 1.4 "Measurement Sheet" shall mean the document containing the results of Measurement.
- 1.5 "Order" shall mean the formal written documents comprising the contractual agreements between the Buyer and the Vendor concerning the Ordered Items, including these Conditions of Purchase and any supplements to the Order referred to signed by the Buyer and countersigned by the Vendor. Such documents shall be sent by Buyer to Vendor as original hardcopy for signing to the Vendor's address, as well as in scan-copy in e-mail attachment, via internet or otherwise. The term "Order" shall also comprise all documents in digital form listed in the Order and supplements thereto constituting an integral part thereof which are not supposed to be signed by the Buyer and countersigned by the Vendor sent by the Buyer to the Vendor as an e-mail attachment, via internet or otherwise.
- 1.6 "Ordered Items" shall mean the supplies and services to be provided by the Vendor according to the Order.
- 1.7 "Owner" shall refer to the client of the Buyer for the Plant for which the Ordered Items is intended.
- 1.8 "Plant" shall mean the overall plant to be supplied to the Owner by the Buyer and for which the Ordered Items is intended.
- 1.9 „promptly“ shall mean within [2] business days.
- 1.10 "Site(s)" shall mean the place where the Plant is to be erected and the place(s) where parts of the Plant are to be assembled.
- 1.11 "Subcontractor" shall mean a natural or legal person, whom the Vendor uses to fulfil its obligations of

the Order. The Subcontractor is a third party in relation to the Order.

1.12 "Vendor" shall refer to the contractual partner to which the Order has been awarded by the Buyer and shall also be referred to herein as "Party".

1.13 "'Vendor's Site Management'" shall mean the person or persons assigned to represent the Vendor on the Site who shall be authorised to make and receive legally binding declarations on behalf of the Vendor.

1.13 "written" or "in writing" shall refer to a document signed by hand which is transferred by letter (including courier), telefax or e-mail attachment.

## 2. Requirements for design, construction and operation of the Plant

By accepting the Order, the Vendor acknowledges its obligation to take into account all relevant requirements for design, construction and operation of the Plant when manufacturing and supplying the Ordered Items, and also confirms that the location in which the Plant is situated and the place(s) where the Ordered Items are to be assembled and/or other works on the Ordered Items are to be carried out are known to Vendor.

The Vendor warrants that it possesses all permits required under Russian law for performance of the Order (including memberships in the self-regulation organisations in the sphere of engineering surveys, civil engineering, construction, upgrading, overhauling, demolition of capital construction facilities and any permits or admissions required for performance of the works and services in the hazardous industrial facilities, if applicable) and shall provide copies of the respective permits to the Buyer promptly upon its request.

## 3. Contents of the Order

3.1 Any conditions of the Vendor that deviate from or contradict these Conditions of Purchase shall only apply if the Buyer agrees to them in writing or by Order. In particular any references to any other general terms and conditions in the communications sent and/or in documents produced by the Vendor shall be disregarded and shall be deemed to be obsolete.

3.2 Orders and other declarations shall only be binding if they are issued or confirmed in writing by the Buyer.

3.3 All terms and conditions, specifications, standards and other appendices that are attached to the Order or are listed therein are part of the Order. They shall apply in the following order of precedence:

- the Purchase Order
- these Conditions of Purchase
- the Buyer's Packing, Marking and Shipping Instructions
- the Technical Specifications
- the General Specifications and the Linde Standards

If not stipulated otherwise in the Technical Specifications, such standards and guidelines shall apply that are valid at the date of the Order.

## 4. Execution of the Ordered Items, subcontracts, start of work, approvals, execution of the Order

4.1 The Ordered Items shall be executed in full in a manner that ensures that they are fully functioning and safe for operation – taking into account the agreed supply and service exclusions – making it fit for the purpose specified in the Order. Only those supplies and services that are expressly mentioned as such in the Order shall be considered excluded from the Ordered Items.

4.2 The Vendor shall carry out the work in a timely manner and in accordance with the requirements of internationally recognised quality management (ISO 9000 et seq. or equivalent) as well as in accordance with applicable design and construction rules of Russian law.

4.3 The Vendor shall supply the technical documentation for all site activities to be performed up to and including the time of commissioning, including the operation and maintenance of the Ordered Items.

4.4 The Vendor shall comply with the statutory, official and professional organisation's regulations, recommendations and guidelines (on environmental protection, accident prevention and occupational safety, etc.) that are valid in the location in which the Plant is situated.

- 4.5 If the Vendor has founded concerns regarding the proposed type of execution, other instructions given by the Buyer, e.g. concerning materials, processing or subcontractors nominated by the Buyer, the quality of materials or equipment provided by the Buyer or the services provided by other contractors, it shall promptly notify the Buyer thereof in writing or by e-mail, if possible before the work begins, and shall develop a solution together with the Buyer. The Vendor shall not take any actions until it receives a written answer from the Buyer.
- 4.6 The Vendor shall only employ Subcontractors with qualifications that can be documentary verified and shall pass on to such Subcontractors any technical and deadline requirements set out in the Order in full. The Vendor shall pursuant to Art. 406.1. (1) of Civil Code RF compensate to the Buyer any losses resulting from any liabilities, claims and fines of third parties or public authorities asserted against the Buyer due to non-compliance with statutory obligations on the part of the Vendor, irrespective of the legal grounds for such claims. In particular, but not limited to this example the Vendor shall, in the event that it uses hired labour, be solely responsible for complying with the applicable laws and regulations regarding temporary employment and for ensuring that the employees used by it and its Subcontractors are in possession of valid work permits.
- 4.7 The Vendor shall pre-assemble the Ordered Items in its workshop as far as is possible and appropriate.
- 4.8 The Buyer's Site Management shall be responsible for dealing, and authorised to deal, with all matters and decisions and authorised to issue all instructions regarding commencement of work, scope of work and execution of the work, the technical execution of the Ordered Items and behaviour on the Site.
- 4.9 Modifications to the execution of work on the Ordered Items may arise from requirements on the part of the Owner and from the conditions on Site. If the Buyer wishes to have these modifications taken into account by the Vendor without incurring any additional charge, it must have informed the Vendor of these modifications by a reasonable latest date to be specified by the Vendor for this purpose.
- 4.10 Before its work commences, the Vendor shall provide information on the status of any preparatory work (in particular with regard to any potential impact on the work to be performed by it) and shall notify the Buyer promptly and in writing or by e-mail of any concerns that it may have in this respect. Failing such notification, any claims against the Buyer based on the status of any such preparatory work shall be excluded.
- 4.11 The Vendor warrants that the instalments and terms and conditions agreed in the Order for services on the Site shall also apply if these services are commissioned by a company affiliated with the Buyer and/or provided by a company affiliated with the Vendor. Affiliated (company) is to be understood according to art. 9 of the Federal Law "On Protection of Competition" dated 26.07.2006 No. 135-FZ.
- If higher instalments are applied with an affiliated company (e.g. either between the Buyer and Vendor's affiliated company or between Buyer's affiliated company and Vendor or between Buyer's and Vendor's affiliated companies), the Vendor shall reimburse the difference compared with the instalments agreed with it in this Order promptly when the service is invoiced by the Vendor or its affiliated company. The reimbursement of the difference between the instalments shall be made to the Buyer if it has commissioned the service on the Site with definitive effect, or to the company affiliated with the Buyer if the Vendor or its affiliated company has commissioned the service on the Site.
- 4.12 The Vendor shall be responsible for the timely provision of all materials, substances, components, instruments, tools and equipment (including arranging for the transportation thereof) which it needs to execute the Ordered Items. It shall also be responsible for storing them, in consultation with the Buyer's Site Management, in a manner that does not interfere with site traffic and for complying with all relevant laws, ordinances and regulations (e.g. the site regulations and the official accident prevention regulations), also concerning storage and, where appropriate, disposal. Furthermore, Vendor shall ensure, that they are in a top-quality, safe condition, ready for use and suitable for safe and cost-effective work.
- 4.13 The Vendor shall inform the Buyer promptly if it realises that it would have to use a technology, performance value or technical characteristic that is new to it.
- 4.14 If the Vendor requires access to Buyer's IT infrastructure, the Vendor shall obtain Buyer's prior consent in

writing or by e-mail and shall comply with Buyer's IT security regulations (Linde Standard LS 940-05 (EN)). The current IT security regulations shall be accessed and consulted on the Internet at [https://www.linde-engineering.com/en/images/LS-940-05-EN\\_tcm19-551315.pdf](https://www.linde-engineering.com/en/images/LS-940-05-EN_tcm19-551315.pdf)

#### 4.15 Occupational safety, behaviour on Site

4.15.1 The Vendor shall take all necessary safety precautions and comply with all safety and other precautions to prevent personal injury or damage to property occurring in the performance of its services and shall coordinate its services with other contractors on the Site to avoid any hazards for each other's property or personnel.

4.15.2 Once the Order has been placed, the Vendor shall provide the Buyer with an organisational chart containing the names, business addresses, telephone and fax numbers, as well as the e-mail addresses, of all members of Vendor's Site Management (including the person responsible for occupational safety on the Site).

4.15.3 By transmitting a copy of the required accident notification, the Vendor shall inform Buyer's Site Management promptly of all accidents involving Vendor's personnel and/or its Subcontractors' personnel and/or third parties brought to the Site by Vendor, which have to be reported in accordance with the statutory and official provisions, including a description of the course of events leading up to, and the causes of, the accident.

4.15.4 Taking photographs on the Site shall require Buyer's prior approval.

#### 4.16 Vendor's staff

4.16.1 Prior to commencement of its work, the Vendor shall nominate a suitable Vendor's Site Manager who shall bear full responsibility for the execution of the Ordered Items.

4.16.2 The absence of Vendor's Site Manager from the Site shall be notified in advance to Buyer's Site Management. In such case, a suitable deputy with the same obligations and decision-making powers shall be nominated by the Vendor.

4.16.3 At least 50% of the staff used by the Vendor for the execution of the Ordered Items shall be staff directly

employed by it, unless the Order specifies a higher proportion of Vendor's own staff. Vendor's Site Manager and its deputy shall be staff employed directly by Vendor.

4.16.4 The Vendor shall ensure, at its own expense, that its staff members have sufficient English language skills, or that qualified interpreters are available, so as to enable sufficiently effective and efficient communication between its staff and the Buyer's staff at all times.

4.16.5 If any of Vendor's staff members are not available on Site or are signed off work for a period of more than four (4) consecutive weeks due to illness or an accident, or if and when this is to be expected given the nature of the injury or illness, or in the event that a staff member should die, the Vendor shall be entitled and obliged to promptly provide an appropriate substitute or substitutes at its own expense.

#### 4.17 Working hours, standby and lost time, daily reports

4.17.1 The Vendor shall organise its working hours in accordance with the Site regulations of the Owner so as to ensure the timely completion of the Ordered Items, whilst complying with the statutory provisions on working hours.

4.17.2 The Vendor shall minimise standby time and lost time as far as possible. In order to ensure this, the Vendor shall, if necessary, reallocate its staff to other parts of its contractual scope of work, or make its staff available for other services that have not yet been agreed. In its staff planning, Vendor shall take into account the fact that additional work and force-account work that is not part of Vendor's original contractual scope of work may arise and must be carried out by it.

4.17.3 Remuneration shall only be paid for standby time and lost time for which the Buyer is responsible and if the Vendor has informed Buyer's Site Management in writing or by e-mail promptly after this scenario has arisen. Remuneration shall only be paid for recognised standby times for those staff members waiting on the Site and based on the hourly and/or daily rates set out in the Order. No remuneration shall be paid by Buyer for standby time and lost time for which the Vendor is responsible.

4.17.4 In the event of assembly disruptions for which the Buyer or the Owner is responsible

- a) the Buyer is entitled to demand that the Vendor withdraws the staff in question;
- b) the Vendor is entitled to withdraw the staff if the disruption is likely to last for more than three (3) consecutive weeks.

In such cases, the Buyer shall pay the costs associated with the demobilisation of staff and their subsequent re-mobilisation to the Site.

4.17.5 The Vendor is aware that the Ordered Items are intended to become part of a complex overall Plant. It is aware that several contractors will generally be working on the Site at the same time, that mutual dependencies will arise concerning the various contractors' work and that coordination of the progress of the work with other contractors working on Site will be required in order to avoid, or at least to minimise, mutual obstruction as far as possible. The Vendor accepts that, particularly because of these mutual dependencies, plans and the proposed sequence of work on the Site may often change – also at short notice – as a matter of course. As a result, the Vendor shall not be entitled to claim any reimbursement for additional costs incurred due to a non-systematic sequence of work, changes in the proposed sequence of work or other changes of plan.

4.17.6 The Vendor shall report the numbers and names of its personnel employed on the Site to Buyer's Site Management every day by 10 a.m.

4.17.7 In the event that the duration specified for Vendor's work on Site is exceeded for reasons attributable to the Vendor, the Vendor shall bear all resulting costs, such as, but not limited to its personnel, personnel made available to it and/or equipment, cranes and tools provided to it.

#### 4.18 Insurance

4.18.1 For the duration of its work, the Vendor shall take out and maintain the following insurance at a sufficient level and at its own expense:

4.18.1.1 A commercial third party liability insurance and a product liability insurance, which must also cover statutory liability for damage caused by an environmental impact on soil, air or water, including bodies of water (environmental damage) and all resulting further damage.  
Statutory liability for loss events occurring abroad if Ordered Items are exported or provided abroad shall also be covered.

4.18.1.2 A vehicle liability insurance for the vehicles operated on the Site on behalf of the Vendor.

4.18.2 The Vendor shall submit suitable insurance certificates to the Buyer as proof of the above-mentioned insurances promptly after being asked to do so.

## 5. Modifications to the Ordered Items

5.1 If the Buyer requests modifications to the Ordered Items, the Vendor shall inform the Buyer promptly in writing of any increase or decrease in price and any effects on the agreed dates and agreed deadlines, backed-up by sufficient proof. The price increase or decrease shall be determined on the basis of the calculation used for the Order. If unit prices have been agreed, the Vendor can only demand an increase in the unit prices in cases in which quantities are reduced if it can furnish evidence of an unreasonable financial burden.

5.2 In order to enable the Buyer to react in time within the complex technical and commercial environment of the international business of plant engineering and construction (e.g. coordination of the numerous companies and crafts and reconciliation with Owner), the Vendor shall inform the Buyer in writing within seven (7) working days of gaining knowledge of any circumstances which it believes entitles it to increase the Order price or change the agreed dates and/or agreed deadlines. Otherwise, any such claim shall be deemed waived by it.

5.3 Changes to the Order shall be negotiated by the Parties giving due consideration to mutual interests and the duty of good faith. The Buyer is entitled to postpone the negotiations at the latest until immediately after the fulfilment of the contractual obligations of the Vendor (not including warranty). Once an agreement has been reached on the changes, the Buyer will issue a supplement to the Order setting out the agreed changes and contractual modifications.

5.4 The Vendor shall, however, even if changes to the Order have not yet been agreed, promptly proceed to carry out the requested modification based on the terms and conditions of the Order remaining unchanged for the time being.

## 6. Technical documentation

- 6.1 Any change notification or approval by the Buyer in the Vendor's technical documentation shall not release the Vendor from its responsibility for the information contained therein, such as dimensions, design, calculation and function of the Ordered Items.
- 6.2 The Vendor shall advise the Buyer of any changes that it makes to drawings and other documents and shall clearly mark every single change.
- 6.3 In the event that technical documents supplied by the Vendor are incorrect and equipment was manufactured and/or procured elsewhere by the Buyer or the Owner on the basis of such documentation, the Vendor shall correct these technical documents at its expense and reimburse the Buyer for the costs associated with any changes, repairs and/or replacement of such equipment resulting from such errors.
- 6.4 Technical data relating to the Ordered Items which the Vendor generates, collects or measures after delivery, as well as the results of its processing, shall be transmitted to the Buyer promptly.

## 7. Dates, deadlines, penalties

- 7.1 The Vendor shall carry out its own monitoring of the time schedule. The Vendor shall bear sole responsibility for monitoring and directing its Subcontractors to ensure that the agreed dates and agreed deadlines are met and that an up-to-date schedule showing target status and actual status is available at all times. The Buyer shall be informed promptly of any potential delays or other problems likely to affect the agreed dates and/or agreed deadlines. Such notification shall not, however, release the Vendor from its obligation to adhere to the agreed dates and agreed deadlines. If the Vendor fails to submit such a notification, it shall be liable for all damages resulting therefrom. At the same time, the Vendor shall inform the Buyer of any corrective measures taken to adhere to the agreed dates and the agreed deadlines.
- 7.2 In the event of delays with regard to agreed dates and/or agreed deadlines for which the Vendor is responsible, or in the event of such impending delays, the Vendor shall, promptly after becoming aware of the delay or the risk of delay, take at its own expense the acceleration measures reasonably required to avoid the delay or, if the delay cannot be

avoided, to shorten the delay to the greatest extent possible, and shall inform the Buyer promptly by e-mail containing the following details: the causes of the delay/causes of the delay risk and forecasted impact on the agreed dates and/or agreed deadlines and acceleration measures planned and already taken including a description of the expected improvement in the scheduling situation. The acceleration measures include, in particular, increased use of personnel and material resources, multi-shift operations, overtime, work performed on Sundays and public holidays and special shipment(s). The Vendor shall also bear the costs for any necessary support, as well as appropriate monitoring and control measures in connection with the delay and the risk of delay taken by the Buyer, with remuneration in this regard being paid based on the usual market hourly rates. The provisions set out above shall apply accordingly in the event of reasonable concerns on the part of the Buyer that the Vendor will not fulfil all or some of its obligations arising from, or in connection with, the Order in a timely manner for reasons for which the Vendor is responsible, with the provision that the acceleration measures are to be taken immediately after notification of the concerns by the Buyer.

- 7.3 If, in spite of receiving a warning, the Vendor fails to take reasonable measures to accelerate the work, or if major damage would occur to the Buyer or to third parties or to the environment caused by the delay or the impending delay, or if the operational safety of the Plant is at risk due to the delay or the impending delay, then the Buyer may complete himself or have a third party complete the Ordered Items in whole or in part at the expense of the Vendor.

In such event, the Vendor shall also return to the Buyer, at the latter's request, the requested part of the documentation, drawings, plans, data media and other technical documents which were prepared by it and/or its Subcontractors (collectively referred to as the "Vendor's Documentation") or provided to it (collectively referred to as the "Information Provided") in connection with the Order promptly or at the point in time or milestone specified by the Buyer. With regard to the surrender of the Vendor's Documentation and Information Provided, the Vendor cannot assert any rights of retention or rights to refuse performance.

- 7.4 Penalties for delays and other agreed contractual penalties can be asserted by the Buyer until the

payment of the final invoice, even if no reservation is expressed on acceptance of the Ordered Items. The assertion of any further-reaching claims for damages due to delays is not excluded. Rescission or termination shall not affect any claims to payment of penalties and compensation for damages that have already arisen.

- 7.5 If, as part of the overall Plant assembly, services have to be carried out by a number of contractors, the Vendor shall be obliged to cooperate and co-ordinate with the Buyer and the other companies on the Site to ensure that the contractual deadlines and dates are met.

## 8. Force majeure

- 8.1 The Vendor shall not be liable for force majeure. Scenarios in which parts that are decisive for the purposes of meeting deadlines become subject of rejections or delays of its Subcontractors except if caused by force majeure, and any strikes not authorised by the trade union in question shall not constitute cases of force majeure.
- 8.2 The Vendor shall give prompt notice and provide evidence of the start and end of such events, the expected delay and any other consequences. Without such notification with accompanying proof, the postponement of agreed dates and/or agreed deadlines will not be accepted.
- 8.3 The Vendor shall take all reasonable precautions and measures to minimise the effects of force majeure.
- 8.4 If the force majeure goes on for more than three months, either Party may unilaterally (out-of-court) withdraw from the Order by written notice. The Buyer shall be entitled to demand the delivery of any parts of the Ordered Items whether completed in full or in part, documents and of any material intended for the execution of the Order in return for payment of the pro rata price. If any advance payment was made by the Buyer such advance payment must be returned by the Vendor in full except of the pro rata price for the Ordered Items already accepted by the Buyer prior to such termination.

## 9. Schedule reviews, quality inspections and tests

- 9.1 The Buyer, the Owner and their representatives shall be entitled to carry out schedule reviews and quality inspections and tests. They shall have access during

normal business hours to the workshops and to all drawings and all other documents as necessary for this purpose. The Vendor shall subject its Subcontractors to a corresponding obligation. The Vendor shall only bear its own costs incurred in connection with such reviews, tests and inspections.

- 9.2 A technical or factory acceptance test or inspection of the Ordered Items shall not be deemed to constitute acceptance of the Ordered Items and / or Plant by the Buyer in the legal sense.
- 9.3 The Buyer, the Owner and their representatives shall be entitled to carry out tests (e.g. X-ray and ultrasound tests) on a random basis. In the event of justified complaints, the Vendor shall bear all costs related to these tests.  
A defect affecting the Ordered Items which, in the reasonable estimation of the Buyer, could pose a direct or indirect risk to other assets, such as life, health, third-party property or the environment, shall entitle the Buyer, the Owner and their representatives to demand that further tests at its sole discretion be performed on the Ordered Items or on parts thereof by the Vendor, or to carry such tests out themselves. The costs of these further tests shall be borne by the Vendor.
- 9.4 If repeated reviews, tests and/or inspections are necessary because of defects and/or delays in production/delivery for which the Vendor is to blame, the Vendor shall bear the costs.
- 9.5 Testings, inspections, releases or approvals by the Buyer, the Owner or their representatives shall not release the Vendor from its responsibility or liability for the quality of the Ordered Items, or from its warranty obligation.
- 9.6 If the Order covers supplies including assembly, the Vendor shall submit to the Buyer, within one (1) month upon the effective date of the Order if such is agreed, otherwise upon the date of the Order, a time schedule for all of the work on the Ordered Items showing all the main activities in the work from the receipt of the Order to the completion of the contractual obligations in the form of a Gantt chart. This time schedule shall be prepared according to the Buyer's requirements and shall be submitted by the Vendor, without any corresponding request by Buyer having to be made, to the Buyer monthly by e-mail. This Gantt chart shall be prepared including a baseline, planned dates as well as actual dates. Furthermore,

the Vendor is obliged to submit additional information to the Buyer upon his request to enable Buyer to verify the actual progress of the Order (e.g. unpriced purchase orders of Subcontractors, current photos of manufactured goods etc.).

- 9.7 If the Vendor wishes to deviate from the Order by moving pre-assembly to manufacturing facilities outside the Site, the prior approval of the Buyer will be required.

## 10. Provision of materials or equipment by the Buyer

- 10.1 If the Buyer or the Owner provide materials or equipment, the Vendor may only use these for the execution of the Order. They shall remain the property of the Buyer or the Owner and as such must be stored separately, labelled, managed, safeguarded and insured by the Vendor as third-party property at its expense. The Vendor shall examine and verify that such materials and equipment are free from defects. Vendor shall be fully responsible for loss of, or damage to, such materials and equipment. The use or installation of materials and equipment provided by the Buyer or the Owner does not release the Vendor from its responsibility or liability for the quality of the Ordered Items or from its warranty obligation.

- 10.2 Unless the Vendor can prove, for example using recognized drawings and material lists, that material and equipment provided by the Buyer or the Owner has been installed, such material and/or equipment shall be returned to the Buyer. If the Vendor cannot return such material and/or equipment because it has been lost, substitute materials and/or equipment shall be procured at Vendor's expense. If the materials management is part of Vendor's scope of work, it shall prepare a material administration sheet, showing the description of materials received and, at the very least, information on the date of the material movement (receipt, installation, storage, return) and status, i.e. installed, stored, returned.

## 11. Spare parts

The Vendor shall remain in a position to offer the Buyer spare parts at the latter's request at reasonable prices and according to the conditions of the Order until the end of the normal lifetime of the Ordered Items, but up to 10 years from the date of the Order at the most.

## 12. Shipping, storage

- 12.1 Partial shipments shall require the express permission of the Buyer and shall be clearly designated as such in the shipping documents. The Vendor shall assume all costs for partial shipments not approved by the Buyer.

- 12.2 All shipping documents shall duly show the information specified by the Buyer, especially the order no., order item, job no., account code no. as well as dimensions, quantity and weight per item.

The Buyer's Packing, Marking and Shipping Instructions must be adhered to.

The Buyer is entitled to reject deliveries without proper shipping documents, test, inspection or acceptance certificates.

- 12.3 All supplies shall be suitably packed for shipment, taking into account the intended mode of transport. Any other special packaging regulations agreed in the Order shall also be adhered to. At Buyer's request, the Vendor shall ensure, if necessary by way of a supplementary agreement with the carriers used by it, that the packaging is removed at the time of take-over by the Buyer, transported back to the Vendor or manufacturer and recycled there, all at no cost to the Buyer.

- 12.4 At the request of the Buyer - even after notification of readiness for shipment - the Vendor shall postpone shipment of the Ordered Items if take-over by the Buyer is temporarily impossible and shall store the Ordered Items appropriately for up to three months at the expense and risk of the Vendor.

If shipment is the event triggering payment, this event shall be deemed to have occurred at the start of the storage period. Any due instalment shall, however, only be paid in return for the premature transfer of title in the Ordered Items to the Buyer based on a handover documents made in the form provided by Buyer.

## 13. Taking over, tests, passing of risk

- 13.1 On occasion of the acceptance of the Plant by the Owner, the Ordered Items will be tested for defects. The Vendor shall be entitled to participate in such tests.

If such a test shows that the Ordered Items are not in accordance with the Order, the Vendor shall, at its

own expense, promptly carry out all measures necessary to fulfil the Order. The costs associated with the test, such as Buyer's personnel costs, shall be borne by the Vendor if the latter is at fault.

13.2 The Buyer or the Owner shall be entitled to use the Ordered Items in full or in part even before the abovementioned tests. This shall not be deemed to constitute the full or partial (formal) acceptance or the Ordered Items.

13.3 If the Vendor has assumed responsibility for assembly at the Site, it shall be obliged to check the Ordered Items to ensure that it is complete and free of defects at the earliest possible point in time after delivery to the Site. By taking over the goods from the warehouse and/or signing a goods issue note, the Vendor assumes care and custody for the goods taken over.

13.4 The acceptance of the Ordered Items shall be documented by an acceptance certificate to be signed by the Buyer and the Vendor. The acceptance certificates shall be prepared by the Vendor and presented to the Buyer for signing upon (i) handing of the Ordered Items to the Buyer if subject of the Ordered Items is only the supply of movables or (ii) upon signing of the acceptance certificate for the Plant if subject of the Ordered Items is also the installation of the movables into the Plant. Interim acceptance of the Ordered Items is possible only if agreed by the Buyer.

13.5 The risk of accidental loss and damage of the Ordered Items shall pass from the Vendor to Buyer on the date of signing the works acceptance certificates regarding such Ordered Items.

#### 14. Warranty for defects

14.1 The Vendor warrants that the Ordered Items will be free from defects, i.e. in particular that they will comply with the characteristics specified in the Order, and will enable safe and disruption-free operation for the intended purpose, that they will be conform to the generally accepted technical rules and that they will comply with the relevant technical documents and regulations, recommendations and guidelines pursuant to section 4.4.

14.2 Due to the special nature of Plant construction, testing of the Ordered Items and, if applicable, notification of defects, can generally only be carried out

after the Ordered Items have been installed and commissioned. As a result, any notification of defects, incorrect delivery or incorrect quantities shall be deemed to have been made on time if it is issued promptly after unpacking, installation or commissioning, as the case may be.

14.3 Unless otherwise agreed in the Order, the warranty period for the Ordered Items, insofar as they constitute movables which (i) will not be installed into the Plant or (ii) will be installed into the Plant and the Plant itself constitutes a movable item, shall be thirty-six (36) months from the time of acceptance of the Ordered Items by the Buyer. However, in the event that the Ordered Items constitute movables which will be inseparably installed into the Plant and the Plant constitutes a building, the statutory warranty period of five (5) years from acceptance of the Ordered Items by the Buyer shall remain applicable.

14.4 If defects of the Ordered Items arise within the warranty period, the Buyer shall be entitled, as it chooses, to instruct the Vendor to remedy these defects within a reasonable period of time determined by the Buyer and in consultation with the Buyer by way of repair or replacement, free of charge for the Buyer. The Vendor shall bear all additional costs incurred in this regard, in particular the material and labour costs, documentation costs, transportation and travel costs to the respective place(s) where the Ordered Items are being used and, the costs of dismantling and reassembly. The Buyer shall be entitled to choose the mode of transport.

14.4.1 If necessary, the remedy of the defects shall be carried out with increased use of staff and/or material resources, working in multi-shift operations and/or overtime or, to the extent permitted under the laws and regulations that apply in the country in which the work is to be carried out, also on Sundays and public holidays.

14.4.2 If, under the warranty, parts are modified or replaced by other parts, any spare parts corresponding to the replaced or modified parts that have been already supplied must also be modified or replaced by Vendor free of charge and the technical documentation amended accordingly free of charge.

14.4.3 If, due to the defects, the Ordered Items cannot be used either in full or in part, the warranty period shall be extended by the period during which the Ordered Items could not be used.

In such cases and where it makes sense to do so, the Vendor shall promptly make provisional arrangements at its own expense and maintain these until the defect has been remedied with definitive effect in order to prevent or minimise any interruption in use.

14.4.4 If, in spite of repeated remedial action, the same type of defect keeps occurring or if other parts of the Ordered Items are likely to be also affected by the defect, the Vendor shall in addition remedy the underlying cause of the defect at its own expense by using suitable means, e.g. by changing the design and/or using other materials, or shall agree to a reasonable extension of the Warranty Period, as requested by the Buyer, for the parts in question.

14.5 If the Vendor has failed to duly remedy the defect by repair and/or replacement despite being granted a reasonable period in which to do so, the Buyer shall have the right, as it chooses:

14.5.1 to perform such remedial work and/or arrange for a replacement to be supplied by itself or via third parties (substitute performance). All costs relating to the substitute performance (e.g. material, wage, transportation costs, cost for documentation, installation and dismantling costs, as well as Buyer's own expense based on the usual market hourly rates) shall be borne by the Vendor.

Insofar as a defect is not (completely) remedied by substitute performance that has been carried out, the Vendor shall remain liable for this defect in accordance with the provisions of the Order.

and

14.5.2 to demand a reduction of the price, by reducing the payment of Buyer in the proportion which, at the date of the Order, the value of the Ordered Items in a state free of defects would have had to its actual value. If the Buyer has already paid more than the reduced remuneration, the Vendor shall reimburse the excess amount within 10 (ten) Business Days upon receipt of the Buyer's request.

or

to rescind the Order. In the event of rescission, the Vendor shall, at the Buyer's request, promptly and at its own expense, professionally dismantle the

parts of the Ordered Items installed in the Plant (by it, the Buyer or third parties) and remove the dismantled parts from the Site. Insofar as this becomes necessary as a result of the dismantling, the Vendor shall take the necessary safety measures in order to avoid damage to the Plant and risks to life, limb and property (e.g. proper closure of pipelines which are open as a result of the dismantling, sealing off of hazardous areas, etc.)

and

14.5.3 to be indemnified by the Vendor for its full damages and losses caused by the defect of the Ordered Items, including damages caused outside of the Ordered Items, or to claim reimbursement for expenses incurred in vain, unless the Vendor is not responsible for remedy of the defect.

14.6 The Buyer shall be entitled to the rights according to section 14.5 of this Conditions of Purchase without the need to set a deadline in advance for remedying the defect, provided that

- a) the Vendor has seriously and definitively refused performance or the remedy of the defect, or
- b) the remedy of the defect has failed, or is unreasonable for the Buyer, or
- c) it is certain that the Vendor will not remedy the defect within the reasonable period of time, or
- d) the remedy of the defect is impossible for the Vendor or
- e) there are special circumstances that justify the immediate exercise of some or all of the rights listed in section 14.5, taking into account the interests of both Parties. This can be the case, in particular, if
  - the Buyer has lost confidence in the Vendor's ability to perform, or
  - the Vendor has concealed the defect with fraudulent intent or
  - the defect is due to wilful intent on the part of the Vendor or
  - the withdrawal of the operating permit for the Ordered Items or the Plant is imminent as a result of defect(s) of the Ordered Items, meaning that it would be unreasonable to wait for the expiration of

the deadline for Vendor to remedy the defect, or

- there is a risk of disproportionate damage to the Buyer or to third parties as a result of waiting due to a deadline for Vendor to remedy the defect, or
- the safety of the Plant or of property not owned by the Vendor, or the safety of individuals or the environment is at risk.

## 15. Product liability, breach of duty

15.1 The Vendor shall compensate to the Buyer any losses resulting from claims of third parties, insofar as the damage has been caused by a defect of the Ordered Items. The Vendor shall bear all costs and expenses in this respect, including, but not limited to, cost of legal defence and of any recall, unless the cause behind the defect did not lie in its sphere of responsibility. The Vendor shall be informed of the content and scope of any recall.

15.2 In the event that the Vendor commits a breach of any of its obligations resulting from, or in connection with, the Order, the Buyer shall have the right to claim from the Vendor any damages or losses incurred as a result, including damage caused outside of the Ordered Items. By way of derogation from the above, however, the Buyer will not claim loss of production or loss of profit unless such damages or losses are due to gross negligence or wilful misconduct on the part of the Vendor, such claim is asserted in turn against the Buyer by the Owner or third parties in this respect, or such damages are covered by an insurance taken out by the Vendor.

## 16. Guarantee for function

In addition to the warranty the Vendor also provides a guarantee for the proper functioning of the Ordered Items for an operation period of 12 months starting on the date of putting the Ordered Items or the Plant into operation depending on which date occurs later, subject to the specific process and operating conditions of the Plant as specified in the attachments to the Order and under local conditions in the location in which the Plant is situated, as well as guarantees that the Ordered Items will be free from defects in design, material and workmanship.

## 17. Third-party rights

If claims are asserted against the Buyer by a third party due to a defect in title, infringement of patent, trademark or copyright etc. for which the Vendor is at fault, the Vendor shall reimburse the Buyer for the resulting damage and expenses and/or shall arrange for the required rights to be obtained from the holders of such rights.

## 18. Ownership, Confidentiality, Data Protection

18.1 Documents, drawings, data and objects which the Vendor receives from the Buyer for the execution of the Order shall remain the property of the Buyer.

18.2 Any information that the Vendor receives from the Buyer and any documents, drawings, data and objects prepared or otherwise created by the Vendor on the basis thereof as well as the conditions of the Order, shall be treated as confidential, including the technical, commercial and personal data contained or embodied therein. They may only be used to process the Order and must also not be copied, published or made available to third parties (e.g. Subcontractor) without the written or by e-mail or in the Order given approval of the Buyer. The approval regarding Subcontractor is given herewith except a non-disclosure-agreement between the Parties or the Order stipulates otherwise. Disclosure to approved third parties (including Subcontractor) requires in addition that these third parties are subject to an equivalent confidentiality obligation.

18.3 The documents, drawings, data and objects handed over by the Buyer and those prepared or otherwise created by the Vendor on the basis thereof shall, at the Buyer's request, be handed over to the latter promptly and/or erased from the Vendor's data media, unless the Vendor is legally obliged to archive them. The Vendor shall brief its employees and the Subcontractors commissioned by it accordingly and subject them to corresponding obligations.

## 19. Publications, advertising

Without the Buyer's written or by e-mail given permission, the Vendor must not make public any information in connection with the Order or the Plant or cause any such information to be made public. This shall also apply to the use of such information as a reference.

## 20. Suspension, termination

20.1 The Buyer is entitled, without recourse to a court, to suspend or terminate the execution of the Order, either in full or in part, immediately or at a certain point in time or milestone, at any time by submitting a written notice to the Vendor, without having to adhere to a notice period or provide grounds for its decision. In such case, the Vendor shall be entitled to payment of the pro rata price for the Ordered Items performed in accordance with the conditions of the Order, plus proven damages in the amount not exceeding the difference between the total price for the Ordered Items and the pro rata price for the Ordered Items performed in accordance with the conditions of the Order. The Buyer is entitled to demand delivery of all or parts of the Ordered Items which have already been completed and/or those which have not yet been completed, as well as repayment of any advance payment which exceeds the amounts owed by the Buyer to the Vendor as provided in this section.

20.2 The Buyer and the Vendor are entitled to terminate the Order, without recourse to a court, in full or in part for cause without observing a period of notice.

The term "cause" refers to a scenario in which

- the other Party is insolvent or overindebted, or
- the other Party cease its payments towards third parties, or
- an application has been filed for insolvency proceedings or comparable legal proceedings in relation to the assets of the other Party, such proceedings have been opened or the opening of such proceedings has been rejected due to a lack of assets, or
- the Owner terminates the contract between the Buyer and the Owner regarding the Plant for reasons for which the Buyer is not responsible.

If the "cause" relates to a breach of a duty arising from the Order, termination is only permissible after the expiry of a reasonable deadline set to remedy the scenario to no avail or after an unsuccessful reproof, which included the declaration to terminate in case of a second breach. The setting of a deadline can be dispensed if (a) the other Party seriously and definitively refuses performance or (b) the other Party does not affect performance by a date or deadline specified in the Order, even though timely performance is essential for the terminating Party based on a

notification submitted by the termination Party to the other Party before or at the time of the conclusion of the Order or even through the date or deadline is penalized or (c) there are special circumstances which justify immediate termination after weighing up the interests of both Parties.

If the Buyer terminates for cause as the Vendor is insolvent or overindebted or an application has been filed for insolvency proceedings or comparable legal proceedings in relation to the assets of the Vendor, such proceedings have been opened or the opening of such proceedings has been rejected due to a lack of assets or the Vendor has breached its obligations under the Order, the Buyer may, at its discretion,

demand delivery of all or parts of the Ordered Items that have already been completed and, at the Vendor's expense, either complete and supply the remaining Ordered Items including documentation, drawings, plans and other technical documents itself, or have them completed and supplied by third parties. For the Ordered Items which the Buyer has received according to its request, the Vendor shall receive the pro rata price of the Order, less any additional costs and expenses incurred by the Buyer as a result of the alternative completion; or

waive the delivery of all Ordered Items and claim damages in lieu of performance. The costs of any dismantling, removal and other costs incurred in connection with the termination shall be borne by the Vendor. The Buyer is entitled to use the Ordered Items free of charge until a replacement solution is ready for operation, but for a period of no more than 12 months. Furthermore, the Vendor shall reimburse the Buyer for all payments made concurrently against the return of (the concerned parts of) the Ordered Items.

If the Buyer terminates for cause due to other reasons than mentioned in the previous paragraph or if the Vendor terminates for a cause the Vendor shall deliver all or parts of the Ordered Items that have already been completed and, at the Vendor's expense, either complete and supply the remaining Ordered Items including documentation, drawings, plans and other technical documents. For the Ordered Items which the Buyer has received

from the Vendor, the Vendor shall receive the pro rata price of the Order and compensation of the documentarily proven damages in the amount not exceeding the difference between the total price of the Order and the pro rata price already paid by the Buyer.

20.3 In the event of termination or suspension, the Vendor shall, either promptly or at a certain point in time or milestone specified by the Buyer:

- a) stop work on the Ordered Items or the affected part thereof;
- b) not issue any further orders to third parties in respect of the Ordered Items or the affected part thereof;
- c) make every effort to immediately cancel or suspend orders concerning the Ordered Items or the affected part thereof that it has awarded to third parties; in cases of suspension, however, it shall only do so to the extent requested by the Buyer, and
- d) safeguard all material intended for execution of the Order and all Ordered Items currently being worked on or which have already been completed, whether these are with the Vendor or its Subcontractors, until further instructions are issued by the Buyer, and shall follow the Buyer's instructions in this regard.

20.4 In the event of termination, the Vendor shall return to the Buyer, at the latter's request, the Vendor's Documentation and Information Provided as defined in section 7.3. promptly or at the point in time or milestone specified by the Buyer. With regard to the surrender of the Vendor's Documentation and Information Provided, the Vendor cannot assert any rights of retention or rights to refuse performance.

20.5 Following termination, either Party can require the other to cooperate in a joint determination of the level of performance. If a Party refuses to cooperate or fails to cooperate at an agreed date or at a date determined by the other Party within a reasonable period of time for the determination of the performance status, it shall bear the burden of proof for the performance status at the time of termination. This shall not apply if the Party fails to meet this obligation as a result of circumstances for which it is not responsible and which it has promptly reported to the other Party.

20.6 In the event that the execution of the Order (in full or in part) is suspended and recommenced by the Buyer, the Vendor can claim compensation for the resulting appropriate and proven additional costs and is also entitled to request an appropriate extension of the agreed dates and/or agreed deadlines.

## 21. Payment, invoicing, guarantees, offsetting, default in payment, assignment, taxes, duties

21.1 Requests for payment, invoices and credit and debit notes shall be submitted as a single copy and in an auditable form, stating the Order number, to the Buyer. Value added tax, if applicable, shall be shown separately. In addition, the Vendor must state its value added tax number in the invoice.

21.2 Payments will also only be made if all precondition for payment of the instalment in question and of the previous instalments have been fulfilled. If payment is related to delivery, then the precondition for this payment is the delivery of all Ordered Items for which one and the same delivery date has been agreed in the Order and signing the acceptance certificate for such Ordered Items by both Parties pursuant to section 13.4.

21.3 If it has been agreed that the warranty retention can be redeemed by way of a guarantee, the Buyer is entitled to refuse the redemption of the retention for such time as the Owner withholds payments from the Buyer for any reason attributable to the Ordered Items.

21.4 The Vendor is only entitled to offset the Buyer's claims for payments against its own claims if these are undisputed or have been determined by final court or arbitration award.

21.5 The Buyer will only be deemed in default in payment if it fails to pay on receipt of a written reminder by the Vendor after the expiry of thirty (30) days from the due date and receipt of invoice pursuant to sections 21.1 and 21.2, or if it fails to pay on the calendar date stated in the Order.

21.6 In the event of Buyer's default in payment, it shall owe interest of 5% p.a.

21.7 In order to be effective an assignment by the Vendor of its claims against the Buyer shall require Buyer's written consent, which shall not be withheld

unreasonably. The Buyer is entitled to assign its claims against the Vendor without consent of the Vendor.

- 21.8. Each Party shall be solely responsible for taxes and tax obligations of any nature arising from the Order.
- 21.9 The Vendor shall fulfil all formal, content-related and legal requirements in connection with the issuance of invoices, VAT-invoices and works acceptance certificates in order to ensure the correct reimbursement of VAT.
- 21.10 If, as a result of measures taken by the authorities, the VAT payment burden of one Party is increased or the input tax of one of the Parties is reduced, both Parties shall be obliged to correct the invoice concerned accordingly.
- 21.11 Direct taxes levied on the basis of the payments in the country of the Buyer shall be borne by the Vendor. All amounts payable in respect of the Order will be paid after deduction of any taxes, duties or administrative fees that have to be withheld at source and paid to the responsible tax authorities by the Buyer on the basis of statutory provisions. If the relevant Double Taxation Treaty provides for a reduction in, or exemption from, withholding tax, the Buyer will only pay the corresponding amount if and when the Vendor has presented a valid exemption certificate to the Buyer on the date of payment at the latest.
- 21.12 The Vendor is responsible for meeting all further obligations imposed on the Vendor by law. Claims or disadvantages arising for the Buyer as a result of the Vendor disregarding these obligations shall be borne by the Vendor.
- 21.13 The Vendor shall be responsible for all customs duties, fees and taxes of any kind, including taxes and duties on salaries, wages and other remuneration paid to its employees and third-party employees, incurred in the execution of the Order.
- 21.14. Invoices for unit price orders shall be based on the auditable calculation of material quantities (known as "calculation of quantities"). If it was agreed in the Order that several invoices may be issued, the calculation of quantities shall state the quantities completed by the end of the contractually agreed period covered by the invoice, as well as the total quantities of the individual services.

The Buyer's Site Management will certify, by signing the Measurement Sheets, only that the quantities are correct in relation to the specified services. Verification of the stated items and of any prices to check that they match the Measurement will be subject to the subsequent verification of the invoice. The calculation of quantities for individual services shall be performed promptly following completion of the individual services and shall be submitted to Buyer's Site Management in accordance with the construction progress, independently of the preparation of the invoice.

- 21.15 All work payable at hourly or daily rates will be invoiced on the basis of time sheets. Time sheets shall be prepared for each working day and submitted to the Buyer's Site Management for confirmation by 10 a.m. of the next working day. Time sheets must show the Order number, the place of execution and exact description of the work performed, the names and qualifications of the workers, the number of days or working hours completed by them, specifying work performed during normal working hours, at night, on Saturdays and Sundays and on public holidays, as well as the name of the person who has instructed the Vendor to perform such work. To the extent travel time is to be paid, this shall not be included in the working hours shown. Remuneration shall only be paid for materials, tools and supporting facilities provided by the Vendor if this has been provided for in the Order and if these are included in a separate Measurement Sheet. Remuneration shall only be paid for work for which a lump-sum price has been agreed if the Vendor provides evidence showing that such work has been executed.
- 21.16 Final invoices shall be marked as such and shall be submitted within four (4) weeks after acceptance of the Ordered Items, including a breakdown by the account code no. specified in the Order and all prior requests for payment, including the invoice number, invoice date, invoice amount, retention amount, as well as the aggregate amount of retention, due payments and value added tax. In addition, and if applicable, the certificate on mechanical completion, as signed by the Buyer and the Vendor for the purposes of payment approval, shall be attached. Payment of the final invoice shall not release the Vendor from any of its contractual obligations or warranties.

## 22. Compliance

- 22.1 The Vendor undertakes to comply with the requirements of the 'Code of Conduct for Suppliers of the Linde Group' (hereinafter referred to as the 'Supplier Code of Conduct'), which can be accessed and consulted on the Internet at: [https://www.linde-engineering.com/en/images/Linde-supplier-Code-of-Conduct\\_tcm19-115749.pdf](https://www.linde-engineering.com/en/images/Linde-supplier-Code-of-Conduct_tcm19-115749.pdf)
- 22.2 The Vendor shall demonstrate compliance with the requirements of the 'Supplier Code of Conduct' at Buyer's request by making corresponding data available or conducting self-assessments and submitting the results to the Buyer.
- 22.3 If the Buyer has reason to believe that Vendor may be in material breach of the requirements set out in the Supplier Code of Conduct, the Buyer or a third party appointed by the Buyer may conduct audits on the Vendor's premises in order to verify the Vendor's compliance with the requirements of the Supplier Code of Conduct. The Vendor shall use all reasonable efforts to ensure that the audits will be conducted in accordance with applicable data protection law and other provisions and Buyer shall neither unreasonably interfere with the Vendor's business activities nor violate any of the Vendor's confidentiality agreements with third parties. The Vendor undertakes to reasonably cooperate in any audits conducted. Each Party shall bear its own expenses in connection with such audits.
- 22.4 In addition to its other rights, the Buyer shall also have the right to terminate the Order for cause pursuant to section 20.2 without observing a period of notice if the Vendor commits a material breach of the Supplier Code of Conduct.
- 22.5 Material breaches include, but are not limited to, incidents of forced or child labour, corruption and bribery, and failure to comply with the Supplier Code of Conduct's environmental protection requirements.

## 23. Export control

- 23.1 The Vendor is obliged to ensure that the Ordered Items are not subject to any export or import restrictions that prohibit its export or import into the country where the Plant is situated and in countries where the Ordered Items will be assembled and/or other works on the Ordered Items are carried out. If the Ordered Items, its individual parts and/or parts

dismantled for transportation are subject to other applicable export or import restrictions, the Vendor shall notify the Buyer promptly by sending an e-mail to [customs.pullach@linde-le.com](mailto:customs.pullach@linde-le.com) or any other e-mail address provided for this purpose by the Buyer.

23.2 The Vendor shall inform the Buyer in writing promptly if it or any of its Subcontractors is or becomes a Denied Party. The Vendor shall not use any Denied Party for the performance of this Order, shall not transmit any information from or about the Buyer or the Order to any Denied Party and shall not supply any items of the Buyer to any Denied Party. A Denied Party is a natural or legal person (i) to whom the Buyer is not authorized to provide any economic resources either directly or indirectly and/or (ii) with whom the Buyer is not authorized to have a business relationship, be it directly or indirectly according to any law on sanctions applicable to the Vendor or the Buyer.

In case sanctions are imposed against the Vendor or any of its subcontractors, starting from the commencement time of this event all obligations of the Parties affected by the restrictive provisions of the law on sanctions shall be suspended and neither of the Parties shall be responsible for non-performance or non-observance of such contractual obligations in full or in part. The Parties shall take joint efforts to find ways to fulfil contractual obligations. In case the actions taken by the Parties do not result in elimination of the circumstances interfering with the Order execution within sixty (60) business days any of the Parties shall be entitled to refuse from the Order performance upon expiration of the above time period and mitigation of restrictive provisions of the laws on sanctions, the Vendor shall return and delete to the extent possible all technical information of the Client provided to the Vendor under the Order.

## 24. Partial ineffectiveness

Should any provision of these Conditions of Purchase or other components of the Order be or become ineffective and/or impracticable, the validity of the remaining provisions shall not be affected.

## 25. Place of fulfilment

Unless otherwise stated in the Order, the place of performance shall be the place where the Buyer has its registered office.

**26. Applicable law**

26.1 The Order shall be governed by the law of the Russian Federation, albeit excluding the conflict of law provisions, the Hague Uniform Laws of Purchase and the Vienna UNCITRAL Convention on the International Sale of Goods (CISG).

26.2 Not applicable.

**27. Place of jurisdiction/arbitration**

27.1 Any dispute, controversy or claim which may arise out of or in connection with the Order, or the execution, breach, termination or invalidity thereof, shall be settled by the International Commercial Arbitration Court at the Chamber of Commerce and Industry of the Russian Federation in accordance with its Rules by three arbitrators appointed according to these Rules. The Arbitration shall be held in Moscow in the Russian language. An arbitral award shall be final for the parties
